

I already like you! Not because you decided to download this package .pdf but because you are ready to invest in your own business and that shows how serious you are about your business.

The good stuff that comes with the package.

- Genesis Framework
- Custom Genesis Child Theme
- Typography that compliments the brand
- Brand color integration
- Logo Design or Logo integration
- Custom Homepage
- Custom Navigations & styling
- Call to action widgets & styling
- Woo commerce store set up & styling (if you have an online store)
- Responsive code + design
- Favicon
- Installation
- 5 Revisions
- Update support for 3 months (plugins and core)

Plus, you get a live site to play around with while we build your website.

So, what exactly happens after you have submitted the form on my website?

I will send you a virtual high five with the questionnaire. Once the questionnaire is submitted, I will send you your

first invoice, oh on that note let me explain you the payment & payment plans

Payment is done in three steps –

- \$399
- \$300
- \$300

Deposit to lock in your project - \$399,

this is nonrefundable, why?

I'm going to be transparent with you on this.

The deposit tells me that you are committed on working on this project together. Once the deposit is made, I will start work on the project immediately, that means I will be putting in my hours and labor, if at any time in the future a client decides to withdraw from the project the deposit will act as a payment for the work and labor I've put in.

Now let's get back to the payment schedule.

Once you pay the deposit, I will begin work on the project, while we coordinate via email.

After we have come to an agreement on the layout, design & structure of your site and launched a test live site, I will be sending you an invoice of \$300.

After this is paid, I will continue with the design elements on your website and further tweak and customize the graphics/design.

Once you have given the green signal or finalized the design, I will send you a final invoice of \$300.

Once paid, I will install the Custom Work on your website and set it up.

You will now be required to set up a user for me so I can offer you the update service for 3 months. If unsure on how to set up a user, don't worry, I will walk you through it.

This completes the package.

If you are interested in working together – fill the form here – [Hi I'm form, fill me up will ya?](#)

Looking forward to working together.
