

Dulcet Theme Set Up

Plugins to Install

Responsive WordPress Slider – Soliloquy Lite (recommended)

or Genesis Responsive slider.

Simple Social Icons

WooCommerce (if you do not have an online store you may skip this)

Genesis Connect for WooCommerce (if you do not have an online store
you may skip this)

Genesis eNews Extended

MailPoet Newsletters

WooCommerce Product Archive Customizer (if you do not have an online
store you may skip this)

Ninja Forms (optional)

Widgets

Dulcet Theme supports a widgetized homepage. If you do not activate the widgets your blog posts will show up on the homepage by default.

HomeTop Left widget area is primarily made for a slider. Which you can add by using a shortcode code created by adding a new Soliloquy slider in your dashboard. **Slider dimensions used in the demo are width – 800px height – 600px.** **HomeTop Right** widget area – you can add a Genesis Enews Extended &/or Simple Social icons or add even your profile. **HomeMiddle** widget area is where the demo uses the woocommerce products widget. **HomeBottom** widget area uses the featured posts widget in the demo. Home Middle & Home Bottom are styled specifically for featured products & featured posts.

To add a widget to a widget area, go to customize – widgets – and click on the widget area of your choice – click add widget

This opens up a list on widget on your right, choose the widget you like and click save.

Set Up Your Shop (optional)

January 21, 2016 by Sonia [Leave a Comment](#) ([Edit](#))

Your theme is Woocommerce ready

After you have activated Woocommerce run the set up wizard & it will install the following pages automatically – Shop/Cart/Checkout/My Account

Do not skip the automated installation of your pages or you will have to create the pages manually adding in an extra step. If you have accidentally skipped it then go [here](#).

Woocommerce Image Dimensions for Dulcet Theme are as follows –

(woocommerce-settings-products-display)

Product Images

These settings affect the display and dimensions of images in your catalog – the display on the front-end will still be affected by CSS styles. After changing these settings you may need to [regenerate your thumbnails](#).

Catalog Images x px Hard Crop?

Single Product Image x px Hard Crop?

Product Thumbnails x px Hard Crop?

Product Image Gallery Enable Lightbox for product images
Include WooCommerce's lightbox. Product gallery images will open in a lightbox.

Change Color Scheme

January 21, 2016 by Sonia [Leave a Comment](#) ([Edit](#))

Dulcet Theme comes with 3 color schemes – Nautical – Lavender – Layer-Cake! Really Layer-Cake. When you first install your theme the theme will take on the default colors. If you want to change your color scheme go to

appearance – customize – color scheme – and click the color scheme you want
