Header & Background

Your theme supports custom header & background.

Header dimensions are 400px x 120px.

To upload header

appearance – customize – header – add new – upload/choose –
select+crop – save & publish

To upload background

appearance – customize – background – change image – choose image –
save & publish

Home Page Widgets

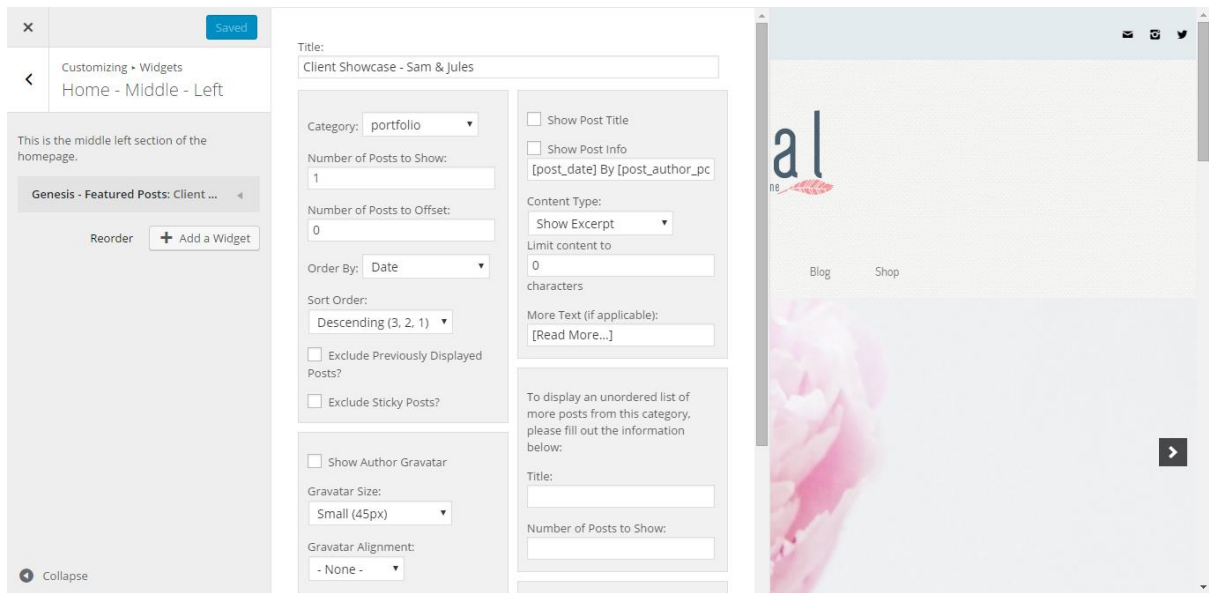

Your theme supports a widgetized homepage. If none of the widgets are active your blog posts will show on the homepage by default.

1. Nav social Icons – This is a widget made for simple social icons. It is displayed on the right side of your secondary nav.
2. Home Slider – this is the full width slider for your homepage. The demo uses [Soliloquy Slider](#) (free plugin)
3. Home Middle is mainly made for featured posts or woocommerce products. The demo uses both featured posts & woocommerce products (*in that order*).
4. Home Middle Left – is where the demo uses featured posts with category “portfolio”
5. Home Middle Right – is where the demo uses featured posts with category “portfolio”

The image shows the WordPress Customizer interface for configuring the 'Home - Middle - Left' widget. The left sidebar shows the widget list with 'Genesis - Featured Posts: Client ...' selected. The main area displays the widget settings, including:

- Order By: Date
- Sort Order: Descending (3, 2, 1)
- Exclude Previously Displayed Posts? (checkbox)
- Exclude Sticky Posts? (checkbox)
- Show Author Gravatar (checkbox)
- Gravatar Size: Small (45px)
- Gravatar Alignment: - None -
- Show Featured Image (checkbox, checked)
- Image Size: home-middle-left (600x600)
- Image Alignment: - None -
- Number of Posts to Show: 0
- More Text (if applicable): [Read More...]
- Show Category Archive Link (checkbox)
- Link Text: More Posts from this Category

On the right, a preview of the homepage is shown, featuring a large image of a plant branch and a bowl, with the text 'al' and 'DE' visible. The navigation menu includes 'Blog' and 'Shop'.

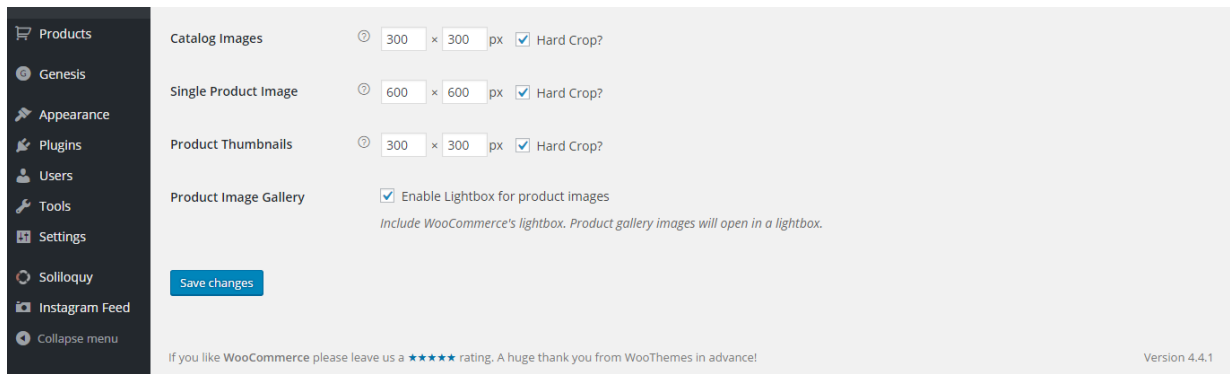

Set Up Portfolio

1. Download – upload – activate [Portfolio Post Type Plugin](#)
2. Upload / Add a portfolio item from under “Portfolio” on the left of your admin screen.
3. Set a feature image to all the portfolio items
4. When you go to www.yourdomain.com/portfolio you should be able to see your portfolio
5. To add your portfolio link to a menu/navigation go to the select menu – custom links – add your portfolio link – add a menu label – & hit save

Shop Set Up (optional)

Shop Dimensions

Your theme is woocommerce ready.If you set up your shop you should change the image dimensions to the following
