Homepage Setup

Please note that the demo uses all the widgets

Home-top is meant for a slider. The theme uses Soliloquy Lite with dimensions of 1200x500.

Home-Middle has the featured posts with the featured image with the size of 1000x100. The theme demo uses title-show post title-show post info (*with time & date deleted*) and the featured image (1000px x 1000px)

Number of Posts to Show:

Home-bottom also uses featured posts but it has been styled to show a smaller featured image size. Please do click on “exclude previously displayed posts” so no post is shown twice.

Home-featured One uses the genesis enews extended widget with mailchimp. It has been styled so it shows horizontally with all the inputs used

Home-featured Two
